entry date, instead of showing the entry date. I'm using the following code to show it: $date_1 = date("d-m-Y", strtotime($row['entrydate'])); $date_2 = date("d-m-Y", strtotime($row['entrydate']. 2)); But it is showing the current date. I need $date_1 to be 2 days after the entrydate and $date_2 to be 4 days after the entrydate. A: You need to pass the two dates to the constructor of DateTime. For example, if today is January 30th, 2012, to check if there will be a two-day difference 1. Create two DateTime instances, one for checking "today" and another for checking "two days ago" $today = new DateTime('now'); $yesterday = clone $today; $yesterday->modify('-2 days'); 2. Calculate the difference between the two

Lee. Very funny and realistic!! Love story of sparrow Lee……. very touching and worth watching……….. Highly recommended!!! Wow!!!!!! This drama is a feel good drama when at the same time when you watch it as it is not so predictable!!!!! lol. This drama entertains me every time I watch it. Yup! I hardly stop it when I am watching it. I hope there will be another season in the future for this drama. Whoever wrote this drama should be applauded for it. Nice indeed! the writer has made this drama in an entirely different way from other drama! the production work is excellent! the story is so relatable with our lives….who ever make this drama,kudos….this drama will surely make another season in the future because it really enthrals us with its unique story line…. YES! I certainly didn't expect this much from this drama. I love the back tracks. I think that is how dramas are really done. & the story line is awesome! it's a must watch. I am waiting for the next update of the episodes. I watched the first episode of this drama and after that I didn't waste a single second of my life watching this drama. During the past 2 days I slept for about a minimum of ten hours but I always switched my blinds & slept through the last couple of episodes. My eyes are well and truly tired but I just had to make time to finish watching it which will be a titanic task in itself for the remaining 27 episodes. I cannot begin to tell you how I feel about this drama. I am surprised that this isn't considered to be one of the best dramas. I have until this point of time yet to watch some of our favorite dramas. The dramas I have watched so far are all on various platforms so I am entitled to say that I am judging the dramas strictly from a viewing point of view. I like the fact that this drama has a traditional title. It hasn't been named "Sparrow Lee" or "More than Love" or "Reunited" but the name is plainly stated on the screen with a lot of historical info. That has to be considered a plus as people will not be confused as to what the title of the drama is. The lovely titles which were used in the past won't be used anymore. I hope something new like "Hangul: I will
