"I really want to give out the highest recommendation for the Elden Ring Cracked Version. The game was stunning, the music was amazing, and every time I got that feeling of potential that comes from holding the power of the Ring. Also I really liked how easy it was for it to have combined the magic and violence... I would recommend this game to anyone" -- NineMouths "I am always a fan of NIS and for me this is a game I would love to see again.....with one very small issue " - Namco Monday "All in all, I really enjoyed the gameplay, the storyline and music. This is definitely one of the best RPGs I've played on the DS! ...The game is really engaging and has a high replay value once you get past the first chapter. It was a very good deal." -- GoblinMage "The gameplay is very fun and addictive, as well as the story line to, as one can never say enough about how intriguing it is. The music is absolutely fantastic. I really felt that each song was a dance, and it gave the game a beautiful feel." -- GenOgusa "The plot was quite gripping, and I really enjoyed how you can customize your character and your own path, which also makes the story very interesting to follow. I was really surprised to see how well it was done. I want to be able to play more games from NIS America!" -- GermanOtaku "What really impressed me about this game is the fact that the story is very different than anything I've seen to date, and yet very reminiscent of older titles. I also must say that the soundtrack is really great; there's very little that I don't like. Personally, I think the game is great from beginning to end." -- WWiF "At the beginning the plot is very confusing, but after a while you get used to it, and then you start wondering about who they were and how they got together. I really liked the fact that it has a mix of both fantasy and science fiction. The story is good, the music is amazing, and the graphics are very beautiful. You can customize your character and develop your own style, which I think adds a lot of replay value. I would recommend this game to everyone who likes to have a good time. ...It does a good job of making you feel like you're in a video game." -- Omnisphere "I really love the bff6bb2d33

So you are going back to Med school after years of medical student life: now what? Physician non-competence is a barrier to effective physician performance, but is partly a result of inherent cognitive difficulties associated with navigating the medical environment. More medical students are obtaining master's degrees in education to improve this basic cognitive ability. In this study, the hypothesis is that a one year course involving high-intensity multimedia instruction will result in improved medical student performance on an objective structured clinical examination (OSCE) in primary care as compared to a control group exposed to conventional teaching methods. Objective: Primary: Determine if a high-intensity interactive multimedia education will result in improved objective structured clinical examination (OSCE) primary care performance versus a control group (conventional teaching methods). Secondary: Determine if a) prior experience with use of the primary electronic instructional media will predict performance on this OSCE or b) initial procedural skills proficiency on the primary instructor's system or receipt of hands-on training on the primary instructor's electronic medical training will predict performance on this OSCE. You are here Stray dogs at Playground, East Timor The Playground for stray and vulnerable dogs in East Timor doesn't have a building or even a fence to keep the dogs in, but that doesn't mean they're unattended — as Luke Webster found out when he and his friends were attacked by three mastiffs in the sand while they played soccer. In April, the Playground started off in a bare plot of land about half a kilometre from the main East Timorese town of Balibo on the island of Timor, where monkeys and pigs roam freely. The playground is still in its early stages, but so far the dogs are the only residents. So far, the playground has received over 300 dogs, but it's short-staffed and they're on a waiting list. Between one and three dogs are dropped off each day, which can be dangerous for them, since they don't always have a secure place to sleep. The dogs are fed twice a day and are housed in a tent on the ground which is covered in a layer of sand and which is set in the middle of a large circular area fenced by bamboo about 150 metres in diameter. There are a number of goats and chickens roaming around, but they're kept separated from the dogs. The dogs know how to play and dance around in the
